Re: Excursion to Caesarea for the Conference participants

Dear Beni

I would like to thank you for the wonderful excursion you led in Caesarea on March 9th 2016. The participants of the conference, which are leading scientists from different countries all over the world enjoyed your wealth of knowledge and excellent explanations very much. The route you chose was enjoyable and new even to the participants who visited Caesarea before.

I look forward to many more trips with you!

With best wishes,

Prof. Talila Volk
